r. DD/S&T

With the transfer of TSD and NPIC, the DD/S&T Directorate has doubled in size.

s. Lecture

An all-day presentation on the Energy Crisis will take place in the Agency Auditorium on 22 May. USIB and non-USIB personnel totaling 100 will attend. Some of those attending have clearances while others do not. Escort arrangements have been effected by the Physical Security Division.

t. Reorganization of Office of Security

The Director of Security advised that a further reduction in slots prior to the end of Fiscal Year 1974 has been directed. This will result in a sweeping reorganization of the Office of Security to permit a forty-forty-five slot reduction through consolidation and elimination of certain functions. This reduction is in addition to the twenty-two slots previously lost, reducing the total OS Table of Organization to [redacted] employees. However, this is not a firm number since it does not include the "double jeopardy" slots involving career security officers which the Office may have to absorb from other Agency components.

The reorganization plan has been forwarded to the Deputy Director for Management and Services for his approval in principle. Once approved, the Office will develop a plan for implementation through assignments and reassignments. Once the time element and method has been selected, the Office will be given a full briefing.

Mr. Osborn stated that the Office will meet its requirements in a way which will permit careful consideration of its personnel. As changes occur, the Office will be duly notified.
